

## Re: Company Name Change

Dear customers and business partners,

Please kindly be notified that the name of KYOCERA CTC Precision Tools Private Limited has been changed to KYOCERA Precision Tools India Pvt. Ltd as of May 11th, 2023.

### **Aim of the name change and our growth strategy**

The Kyocera group focuses more on highly potential Indian markets in our global business perspectives, providing unique products and services and sharing helpful information, including business stories supportive to customers. That led us to change the name of the company. We are confident that we will help support customers expand their businesses globally with their “Make in India” products and services.

*Quote: Takashi Wakamatsu (Managing Director): Based on Kyocera's most important “customer-first” principle, we will actively incorporate your opinions and focus on providing better services than ever before. All our employees will do our best and be happy to contribute to your all prosperity.*
